

REMARKS

This response superceeds the amendment filed on 11/7/07 with a complete listing of the claims. The specification was again objected to, for the third time, for informalities. Applicant requests reconsideration. A copy of the specification as filed is now attached hereto for the examiner's convenience and comparison. Would the examiner be so kind as to specifically identify at least one purported typo or error? In both of the applicant's prior responses, and here again, the purported typos and errors, which cannot be found in the text by applicant, are believed to be caused from imperfect scanning at the PTO. Until an error can be identified, it cannot be corrected. The examiner and the undersigned attorney of record could discuss by conference call any typos or errors and immediately correct them by way of an examiner's amendment, if the examiner so desires.

Claim 3 was objected to for informalities. Applicant requests reconsideration. Claim 3 has been accordingly amended. The claims and specification being in apparent good order, applicant requests allowance of the claims.

Respectfully Submitted
